# Web Log Evaluation Report

This report analyzes web traffic and error logs from our server, detailing page access frequency, visitor IPs, access times, and browser types. Timeline diagrams illustrate access patterns and error occurrences over time. The Diagram included along with a link to the data extraction script in the repository.

The Data extraction script : tail/var/log/apache2/access.log

	IP Address	Time	Browser	Page accessed	Error
1	178.26.85.175	2024-11-06 14:58	Firefox 132.0	/~tlachezarov/docs/back_end.php	500
2	178.26.85.175	2024-11-06 14:58	Firefox 132.0	/~tlachezarov/docs/GDPR.css	404
3	178.26.85.175	2024-11-06 14:58	Firefox 132.0	/~tlachezarov/docs/Register_page.css	200
